Virginia

Dear Sir:

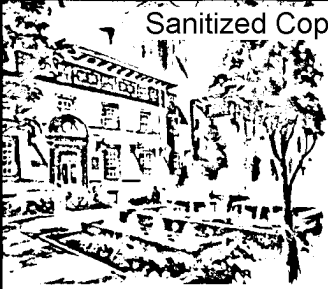

While on a ski trip to Courchevel, France (January 11-21), a group of my friends tuned in on a transistor radio at about 1540 what sounded like an adult, male, Negro voice speaking American English between 11 and 12 o'clock p.m. (alpine time).

This man badmouthed the United States so terribly that I would very much like to find out everything you know about him: Who he is, where he comes from, from where he broadcasts, etc.

He acts as a disc jockey and the entire time he speaks music is playing in the background. HE is articulate, enunciates beautifully and is hostile. He acts as if he were somehow pushed out of the U.S.A. At one point he said to contact him at: BERLIN OPS (or West) 60 and that he was broadcasting at 511 kilocycles.

The latter is all I ever heard him say, but my friends recall the following list of his remarks which they heard on two different occasions: January 12 and 19.

- Nixon and his capitalistic bloodsuckers were forcing the war on the peaceloving people of Asia for their personal gain and that American warmongering generals were killing their own people...
- American soldiers wear helmets and carry guns with fixed bayonettes and are killing people daily in such places as Kent (not Kent State), San Francisco and Cairo...
- The American people are in revolution amongst themselves: Nixon vs the citizens...
- The U.S. government is trying to take over the ^{world} ~~work~~ and the American people are so stupid they don't know the difference...
- Americans have ~~nothing~~; nothing. Every American who ever won a Nobel prize was foreign born...

page 2

- The Brain Drain policy of the U.S. lures intelligent people here to tap brain power and the rest of the world is powerless to stop U.S. achievement because of the brain drain of the rest of the world...
- The Blacks in America have no rights, i.e. recent issue of Angela Davis...

Actually this isn't far afield of what some of the young radicals are saying at home and it may be standard anti-American propaganda that neither my friends nor I had ever before actually heard ourselves. But what concerned us was that a group of British persons at the same resort had also heard the broadcast. They mentioned that this is the only sort of thing they ever hear about the U.S.A. and wanted to know what the conditions really are.

In an effort to track this man down while in Europe, a week ago I telephoned the American delegation in Geneva who referred me to [redacted] at the Voice of America, also in Geneva. She knew nothing of this man and referred me to your office.

I would very much appreciate any and all information you might be able to forward on this subject.

Sincerely,

Madelyn Voigts
